

Academic Development Events in Colleges

Introduction

The Academic Development team in Education Enhancement have led on, and/or made significant contributions to, the following developmental events in Colleges. These events are focused, collaborative and creative in design and in tone. They are developed and delivered in partnership with College-based academic colleagues; the focus is on sharing the many examples of good practice and on solving challenges. In addition to these larger events, the College Education Advisers within the team regularly work alongside individual academic staff and smaller subject-based groups, in their Colleges, in relation to a wide range of teaching, curriculum development, assessment, evaluation, student support and supervision-related topics. The team also delivers the Higher Education Academy-accredited Learning and Teaching in Higher Education (LTHE) course for postgraduate teaching assistants, and the Postgraduate Certificate in Academic Practice (PCAP) programme for early career staff.

For further information about how your College Adviser can work with you to enhance academic practice in a wide range of areas, please contact your College Education Adviser, or the Head of Academic Development, Dr Dilly Fung (D.Fung@exeter.ac.uk).

Record of Academic Development Events

When?	For whom?	Topic(s) covered?	Strategic focus
Feb 2012	ALL COLLEGES University Senior Tutor Forum	Personal tutoring	Education Strategy
Jan 2012	SOCIAL SCIENCES &INTERNATIONAL STUDIES Staff development workshop	Assessment and feedback	College needs-led
